

WORKWISE AI - CAPACITI PROJECT

Name: Kgotso Moeketsie

Date: 26 Aug 2026

Problem Statement:

Professionals waste 3+ hours daily on emails, meeting notes, and task planning.

Solution: WorkWise AI - Productivity Assistant Bot

Built on Poe.com

3 Main Features:

1. Email Generator - Creates formal, informal, persuasive, and custom emails with tone adjustment
2. Meeting Summarizer - Generates Meeting Summary, Key Decisions, and Action Items (with Owner and Deadline)
3. Task Planner - Uses Eisenhower Matrix to prioritize and creates 8am-5pm schedule

Tool Used: Poe.com, ChatGPT, Canva

Responsible AI Considerations:

- Added disclaimer: "Please review AI output before using"
- No user data stored, privacy respected
- Bias checked by testing different tones and scenarios
- Transparent about AI limitations

Impact:

Saves 10 hours per week for small businesses, students, and professionals. Improves productivity and reduces stress.
